

A Show of Patriotism:

The Art of Healing Heroes

The power of art can heal the human spirit and the power of imagination can heal the body and mind. Our new exhibit features the transformative effects of Joel Harris' uniquely effective art-therapy program for soldiers returning from combat. For three years, Joel has utilized a unique approach with non-artists to use illustration as part of an inner healing process aimed at touching the soul and create a sense of wholeness for the artist.
